Music & Theater

Requirement: one year, or three trimesters, of art, music or theater, for academic credit, in any combination, during the high school years. New fifth-formers must complete two trimesters of art, music, or theater for academic credit. This curriculum map shows options for study and the most common paths through the curriculum. Refer to the course descriptions for details.

Notes: Rectangles indicate yearlong courses; squares are trimester-contained; two-trimester courses are described as such. Arrows indicate a prerequisite for study at the next level. Diploma requirements may be met by courses with a solid filling; a clear filling describes an elective course. A grid pattern signifies, in music, a half-credit course.
